ABOUT ME

Full-Stack Developer with hands-on experience in building and deploying production-ready applications across mobile and web platforms. Strong foundation in Java, Python, JavaScript, and modern frameworks including Flutter and the MERN stack. Experienced in Agile environments, full SDLC execution, and delivering scalable solutions for real clients. Actively seeking full-stack or software development roles where impact and learning go hand-in-hand.

EDUCATION

Sinhgad Institute of Business Administration and Research (SIBAR) | 2024 - 2026

Master of Computer Applications (MCA)

Abeda Inamdar Senior College of Arts, Science and Commerce | 2021 - 2024

Bachelor of Computer Applications (BCA)

Percentage: 90.92%

WORK EXPERIENCE

NBK Software Solutions July 2025 – Oct 2025

Software Development Engineer Intern

- Led the full-cycle development of the Autoinsure mobile app using Dart and Flutter, resulting in a successful publication on the Google Play Store.
- Contributed to various stages of the SDLC, including technical documentation, bug fixing, and feature testing.
- Demonstrated strong problem-solving skills and teamwork while delivering the project for client Bhartiya Bima Fintech.

SKILLS

- Languages: Java, Python, JavaScript, Dart
- Frontend: HTML5, CSS3, Tailwind CSS, React.js
- Backend: Node.js (learning), Express.js (learning), PHP
- Databases: MongoDB, MySQL
- Mobile Development: Flutter (Dart)
- Tools & Platforms: Git, GitHub, VS Code, Google Play Console
- Practices: Agile, SDLC, Software Testing
- Communication: English(Fluent), Hindi, Gujarati

PROJECTS

UtilVerse – Android Utility Application Jul 2023 – Apr 2024

- Developed a multi-utility app to enhance productivity and efficient time management.
- Implemented using Flutter Framework, following a structured project workflow.
- Integrated tools including calculators, task managers, and schedulers.

Life Unscripted – Blogging Website Oct 2022 – Feb 2023

- Built a clean, minimal blogging website using HTML, CSS, and PHP.
- Designed for user simplicity and good performance for first-time bloggers.
- Developed features for CRUD operations, authentication, and post management.
